OBJECTIVE

Motivated Software Developer with 3 years of experience building robust and complex applications with a strong background in web technologies and responsive design. My work experience honed my aptitude of web development, user interfaces and problem solving and I would continue to do so. Seeking an opportunity to leverage my experience and education.

TECHNICAL SKILLS

- **Web development:** HTML, CSS, Bootstrap 4 & 5, JavaScript, jQuery.
- **Databases:** Oracle, MongoDB.
- **Operating Systems:** Windows 10, 11, XP/7, MacOS.
- **Programming Languages:** Java, Struts2.
- **Softwares:** Axios, Cloudinary, Visual Studio Code, Postman, Jasper Reports.
- **Other Tools:** MS Office, Chrome Dev Tools.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER, Liza Technologies, 2013 – 2016

- Created user interfaces for easy logging of client information using Front end technologies like HTML, Bootstrap 4 & 5, CSS, JavaScript.
- Integrated RESTful APIs to enhance functionality and user experience.
- Developed different routes for login/ logout, update, review using Backend technologies like ExpressJS, SQL.
- Implemented server-side rendering using Axios Library.
- NPM for package installation.
- Integrated applications with Cloudinary for storing data.
- Implemented Responsive web design.
- Code refactoring and optimization.
- Assisted in the design, development, and maintenance of responsive, high-performance web applications.
- Attended daily SCRUM meetings and sprint planning to ensure that project implementations follow the architecture design and achieve core web vitals score such as performance, accessibility, scalability, security and resilience.
- Work with QA for code review and deploy bug free sprint to production.

SOFTWARE DEVELOPER, Highmark Credit Info. Services, 2010 – 2011

- Developed an application for automating the entry of credit information of users.
- Followed the MVC architecture framework for development
- Implemented Object Oriented methodologies using Struts2, XML, Oracle.
- Developed user interfaces for logging user information using JSP.
- Provided solution for generating pdf reports using Jasper reports.
- Participated in a tight-knit engineering team employing agile software development practices.

ADMINISTRATIVE ASSISTANT, AP Properties, 2017 – 2022

- Handled customer complaints and inquiries in a courteous and efficient manner.
- Updated and maintained database with accurate customer information and timely data entry.
- Processed orders, returns, and exchanges in an accurate manner.
- Reported problems on site to respective contractors.
- Followed up with customers regarding product functionality and overall satisfaction by means of feedback forms.
- Greeted customers by name and built lasting relationships.
- Logged details of customer service calls in computer system following correct protocols.

PROJECTS

Yelp-Campground 2022

Developed a web application that helps camping enthusiasts to enter details about new campgrounds, review and rate existing ones, update and delete campgrounds.

- Developed user interfaces for login/logout, review, update, edit, delete using HTML, CSS and Javascript.
- Implemented RESTful API design for optimum functionality.
- Integrated MongoDB database for storing of camp goers information.
- Integrated Cloudinary for storing of camp ground images.

EDUCATION

Master's degree in Computer Science	AI College, SPPU	2011 – 2013
Web Development bootcamp	Udemy	2022

CERTIFICATIONS

AWS Certified Cloud Practitioner	2021 – 2024
CSRNW	May 2023
